

About Us

The Far Northeast Small Business Association (FNE SBA) aims to establish a supportive network for small businesses in the Philadelphia Far Northeast Community, extending its membership to neighboring Montgomery and Bucks Counties. Our association provides resources, guidance, and networking opportunities to empower small business owners to foster growth and success in a highly competitive market. By offering a range of services including mentorship, workshops, advocacy, and networking events, we aim to become the go-to partnership for small businesses in our community. Visit us at FNESBA.org

Our Services

- **Support:** We provide comprehensive support services tailored to the needs of small businesses, including mentorship, education, and resources.
- **Advocacy:** We advocate for policies and regulations with city, state and federal agencies that promote the growth and sustainability of small businesses.
- **Visibility:** We increase the visibility of small businesses in the community through marketing initiatives, digital media and promotional activities.
- **Education:** We offer workshops, seminars, and training programs to enhance the skills and knowledge of small business owners and employees.
- **Networking:** We facilitate networking opportunities for small business owners to connect, collaborate, and share experiences.
